

HD Process Triclamp mounted screen and sock filters

- FDA, USDA and 3A compliant
- Screen gaskets and sock filters designed to fit in a clamp union
- Screen gasket sizes from ½" to 6"
- Sock filter sizes from 1" to 4"
- STD Sock filter length 6", other sizes on request
- Various gasket materials available:
- EPDM, PTFE, Silicon, Viton, NBR
- AISI316L stainless steel
- 4 to 325 mesh (5100µm to 40µm respectively)

Screen Options Available:

- Screens and Perforated Plates, 1/2" through 6".
Socks with 1" through 4" Gasket sizes in short length (1" long) or long length (6" long).
- Custom lengths are available up to 60" long.
- 316L Stainless Steel screen material standard, hastalloy and other materials available upon request.
- Mesh sizes from 4 to 325 using standard available wire sizes for screens.
- Socks meshes are available from 10 to 100 mesh.
Standard Screens and Perforated Plate sizes

SCREEN GASKET PROGRAMS THAT MEET THE HIGHEST STANDARDS:

- US Pharmacopeia Class VI Tested and certified.
- USDA and 3A.
- Title 21 CFR, FDA compliance.
- Made to ASME-BPE standards.
- Manufactured to Current Good Manufacturing Practices

Screen Gaskets . . . TO MEET YOUR NEEDS

MATERIALS	PART NUMBER	SIZES	MESHES
PTFE	40MPGS	1/2" - 12"	4 thru 325
POLYSTEEL	40MPG-PSS	1/2" - 12"	4 thru 325
PLATINUM SILICONE	40RXPXS	1/2" - 6"	4 thru 325
EPDM	40MPES	1/2" - 6"	4 thru 325
VITON	40MPSFY	1/2" - 6"	4 thru 325
BUNA	40MPUS	1/2" - 6"	4 thru 325

To complete part numbers add gasket size and mesh.

Part Number Examples:

2" Platinum Silicone 100 mesh would be: 40RXPXS-200/100

2" Teflon 30 mesh would be: 40MPGS-200/30
